SAM'L H. TATE, Proth'y.

Proth'y's Office, Bedford, Jan. 21, 1859.

From the Cincinnati Times.

The Maniac's Sermon—A Camp Meeting Incident.

It was eleven o'clock on Sabbath morning. Two sermons had been preached during the forenoon, and the "horn" had been blown announcing the third. The people flocked into the meeting by thousands, for a very popular divine was to preach at that hour.

The eloquent minister arose. All was instantly hushed, and the stillness of mid-night reigned in that vast assemblage. He opened a book and read therefrom, softly, sweetly, musically, a hymn which he requested the congregation to sing.

The music of a camp meeting! Who that has ever heard it has not paused to drink the rich melody into his soul? It comes with a grandeur yet softness and sweetness that can be heard nowhere else. The measured strains of a multitude of voices, united in charming melody and unbroken by walls, swell in solemn grandeur, and roll deliciously through the forests, awaking re-echoing cadences on every hand, and

"Untwisting all the charms that tie
The hidden soul of harmony."

After the hymn had been sung the minister offered up a brief, eloquent prayer, and then resumed his seat. He had taken the Bible on his knee and was searching for his text, when he and the whole congregation were startled by the appearance of the Maniac Smith.

The young lunatic, who was known to nearly all present, ascended the pulpit with folded arms, bowed head, and slow and steady pace. Facing the immense congregation, he gazed carefully around, and amid breathless silence spread forth his hands, and in the most thrilling manner said:

"Your music is the music of heaven. The pretty birds in yonder tree tops are bearing it with their songs to the lips of angels above, who will convey it as sweet incense to the omnipotent throne of God. Joy is thine, O Israel. You possess the living soul, that rejoices in the glory of immortality. My soul is dead! A cherished child of piety, I became recreant to the God that gave me being and sold my life, my happiness, my immortality to the Prince of Darkness. Like the traveler who has a trodden path before him, but is attracted to dangerous places by the gaudy show of some poisonous flower, I have wandered to my death!—My feet were placed in the straight and narrow way, were covered with the sandals of piety, and the christian staff was placed in my hands, and yet, O God! I wandered to my death. The gaudy baubles of vice, the showy yet thorny flowers of wickedness [illegible] side. I left the smooth surface, and ascended to mountains of trouble, and yet I gained not the object of my pursuit. On I dashed, reckless and indifferent to my fate. The wicked one, who sought my destruction, led me on, and I, cursed with remorse, followed. I knew I was plunging into ruin, with a soul already accursed, wat cared I? Voluntarily I had sought death and it came. It was one night, and oh! a fearful night it was to me, exhausted, doomed, and accursed, I was still clambering up the mountain of sin. I came to a chasm, deep and fearful. The lightnings of heaven flashed about me, and the thunder of Omnipotence pealed in my ears. I felt myself moving towards that fearful chasm!—Death, eternal death, stared me in the face, and I screamed piteously for help. No one came to aid me. My companions in vice listened not to my cries, and he to whom I had sold my soul derided me in mockery! I was moved on nearer and nearer to the precipice. Frantically I grasped each shrub and rocky prominence which lay in my way, but they crumbled in my hands. I reached the edge of the precipice! I glanced into the deep abyss of death! Oh! terror, terror! I plead heaven for mercy, but, great God, it was too late!

"My sin-covered soul trembled with the agony it suffered, and was piteous in its appeals. But the thunder told me, "Too late," and gracious heavens, my own cowardly soul told me "Too late!" I felt myself going over the precipice. I clung with tenacity to everything within my reach, but nothing could save me.—I shrieked! I groaned! Down to perdition went my soul!"

Here the maniac paused. His vivid portraiture of his career had startled the whole congregation, some of whom shrieked out right as he represented his soul's frightful descent into perdition. He paused a minute only. Then calm again, he softly said:

"I am living without a soul! You people of God may sing your praises, for it is as sweet incense to your souls. But you sinners must repent this day, or your souls will go after mine over that deep, dark, fearful abyss into hell! Will you repent or go with me into eternal perdition?"

The effect of this was more than terrific.—Screams and groans arose from the gay and giddy in the congregation.

A year or two before, this young man was brought home one evening insensibly drunk.—The next morning found him the victim of a terrible fever, brought on by his sensual indulgence and extravagant course of life. Of that fever he was, after many fearful days, and much tender care by his relatives, cured, but it left him a raving maniac. So fearful were his mad efforts, it became necessary to keep him in a Lunatic Asylum, to keep him from perpetrating mischief on himself and others. He remained there until within a few weeks of the camp meeting, when he became sufficiently restored to be returned to the custody of his family. He was still insane, but was mild and obedient, and under those circumstances he was taken with the family to the camp meeting, the utmost vigilance being exercised over him.

Young men! beware of the cup, the destroyer of the soul!

Counsels for the Young.

Never be cast down by trifles. If a spider breaks his web twenty times, twenty times will he mend it again. Make up your mind to do a thing, and you will do it. Fear not if trouble comes upon you; keep up your spirits though the day may be a dark one—

"Troubles never last forever,
The darkest day will pass away."

If the sun is going down, look up to the stars; if the earth is dark, keep your eyes on heaven. With God's presence and promise, a man or child may be cheerful.

"Never despair when fog's in the air,
A sunshiny morning will come without warning."

Mind what you run after! Never be content with a bubble that will burst; nor a firewood that will end in smoke and darkness. But that which you can keep, and which is worth keeping.

"Something s'artling that will say
When gold and silver fly away!"

Fight hard against a hasty temper. Anger will come but resist it strongly. A spark may set a house on fire. A fit of passion may give you cause to mourn all the days of your life.—Never revenge an injury.

"He that revengeth knows no rest:
The meek possess a peaceful breast."

If you have an enemy, act kindly to him, and make him your friend. You may not win him over at once, but try again. Let one kindness be followed by another, till you have compassed your end. By little and by little great things are completed.

"Water falling day by day
Wears the hardest rock away."

And so repeated kindness will soften a heart of stone.

Whatever you do, do it willingly. A boy that is whipped at school never learns his lesson well. A man that is compelled to work, cares not how badly it is performed. He that pulls off his coat cheerfully, strips up his sleeves in earnest, and sings while he works, is the man for me—

"A cheerful spirit gets on quick:
A grumbler in the mud will stick."

Evil thoughts are worse enemies than lions and tigers, for we can get out of the way of wild beasts—but bad thoughts win their day everywhere. Keep your heads and hearts full of good thoughts, that bad thoughts may not find room—

"Be on your guard, and strive to pray,
To drive all evil thoughts away."

Sheridan's Wit.

The following is an authentic anecdote in connection with the Drury Lane Theatre; rebuilt by Holland, the Architect, and by him leased to Sheridan, who became largely in his debt.

Holland could never obtain a settlement or an interview on the subject with Sheridan. He hunted him for weeks and months at his own house, at the theatre, at his usual resorts; but he was nowhere to be seen. At last he tracked him to the stage door, rushed in, in spite of the opposition of the burly porter, and found the manager on the stage conversing with a party of gentlemen whom he had invited to show them the theatre. Sheridan saw Holland approaching, and knowing that escape was impossible, put a bold face on the matter.

"Ah! my dear fellow," exclaimed he, "you are the very man I wanted to see—you have come most apropos. I am truly sorry you have have had the trouble of calling upon me so often; but now we are met; in a few minutes I shall be at liberty; we will then go into my room together and settle our affairs. But first you must decide an important question here.—Some of these gentlemen tell me there are complaints, and loud ones, that the transmission of sound is defective in your beautiful theatre.—That in fact the galleries cannot hear at all, and that is the reason why they are so noisy of late."

"Sound defective, not hear!" reiterated the astonished architect, turning pale, and almost staggering back; "why it is the most perfect building for sound that was ever erected; I'll stake my reputation on it, the complaint is most groundless."

"So I say," restored Sheridan; but now we'll bring the question to issue definitely, and then have a paragraph or two in the papers. Do you, Holland, go and place yourself at the back of the upper gallery, while I stand here and talk to you.

"Certainly," said Holland, "with the greatest pleasure."

A lantern was provided, with a trusty guide, and away went the architect through a labyrynth of dark and winding passages, almost a day's journey, until he reached his distant elevated post.

"Now, Mr. Holland, cried Sheridan, "are you there and ready."

"Yes," was the immediate answer.

"Can you hear me?"

"Perfectly, perfectly, Mr. Sheridan."

"Then I wish you a very good morning."

So saying Sheridan disappeared and was two or three miles off before Holland could descend. Another long interval occurred ere he was able to chase the fugitive to his lair again.

☞At a railway station, an old lady said to a very pompous looking gentleman, who was talking about steam communication—

"Pray sir, what is steam?"

"Steam, ma'am, is, ah!—steam is eh, ah! steam is—steam!"

"I knew that chap couldn't tell ye," said a rough looking fellow standing by; "but steam is a bucket of water in a tremendous perspiration."

Popular Errors.

The human body, in our climate, is always much warmer than the atmosphere, and is constantly throwing off heat. All substances, in respect to heat, are called good or bad conductors. If we apply our hand to the carpet, it will appear tolerably warm, because it is a bad conductor, and takes no heat from us. If we next touch the floor, which is of wood, and therefore, although a bad one, is a better conductor than the carpet, it will appear somewhat cold—as it takes some of the heat of our hand away. Iron and other metals, being eminently good conductors, will abstract a greater quantity of heat from us; so that when we come to touch that, it will appear very cold, for the loss of heat which our body immediately experiences. The same fallacious testimony of the touch would induce us to believe that water is really much colder than it is. When we take the cold bath, we experience a chilly sensation in passing out of the atmosphere into the water, although a thermometer will tell us that they are both of the same temperature; this is because it has a property peculiar to itself, by which it absorbs and carries away whatever heat may be brought in contact with it, and which is equivalent in its results to the property of a conductor. Thus it will appear that what seems to be a cold sensation received from other objects, is in reality, nothing more than the loss of heat in touching them: and thus it is evident that the Author of the Universe formed our senses to answer the ordinary purposes of life, and gave us intellect to correct their errors, and enable us to apply them to higher and nobler purposes of science.

Ike Partington and Pugilism.

Mrs. Partington was much surprised to find Ike, one rainy afternoon, in a spare room, with the rag-bag hung to the bed post, which he was belaboring very lustily with his fists as huge as two cent apples.

"What gymnastiness are you doing here?" said she, as she opened the door.

He did not stop, and merely replying "training," continued to pitch in. She stood looking at him as he danced around the bag, busily punching its rotund sides.

"That's the Morrissey touch, "said he, giving one side a dig, "and that," hitting the other side, "is the Benicia Boy." She said:

"Stop!" and he immediately stopped after he had given the last blow for Morrissey. "I am afraid the training you are having isn't good, and I think you had better train in some other company. I thought your going into compound fractures in school would be dilotorious to you. I don't know who Mr. Morrissey is, and don't want to, but I read he was been whipping the Pernicious Boy, a poor lad with a sore leg, and I think he ought to be ashamed of himself."

Ike must have read the papers.

Webster's Courting.

Daniel Webster married the woman he loved, and the twenty years he lived with her brought him to the meridian of his greatness. An anecdote is current on this subject, which is not recorded in the books. Mr. Webster was becoming intimate with Miss Grace Fletcher, when a skein of silk, which he was holding for her to wind, was getting in to a knot. Mr. Webster assisted in unravelling the snarl—then looking up to Miss Grace, he said, "We have untied a knot, don't you think we could tie one?" Grace was a little embarrassed, said not a word, but in the course of a few minutes she tied a knot in a piece of tape and handed it to Mr. W. This piece of tape, the thread of his domestic joys, was found after the death of Mr. Webster, preserved as one of his most precious relics.

A COOL DELINQUENT.—Hillyer, of the Natchez *Courier*, recently dunned a delinquent subscriber, who is five years in arrears. In reply to the dunning epistle, the fellow writes the annexed strikingly cool letter:

"Now you may say or think that all this is nothing to you, and that I have had the paper and ought to pay for it. True, I have had it and read it, and if I should try very hard perhaps I might pay for it; but the fact is, I have gone to the full length of my rope. If I come out right side up, I will pay your bill, and if I don't come out right side up, I think you ought to lose it for giving such long credits. *For such extensive credits give scoundrels and dishonest folks a great advantage over honest ones.* I wish it distinctly understood that the paper be stopped, unless you choose to take the chances just as they are."

SPIRITUALISM IN ITALY.—A funny story is told, in a communication to the Spiritual Age, by Mr. J. J. Jarves, the distinguished author of "Art Hints," "Confessions of an Inquirer," &c., now residing in Florence, Italy. It is as follows:

"At a recent circle in this city, a skeptical physician unexpectedly entered, on a visit, and seeing what the family were about, asked permission, "for the fun of the thing," to sit with them. The phenomena soon began, and directed towards him, too.

"Who is it wants me?" he asked.

The medium's hand (a titled lady of great refinement and distinction in society,) was made to write,—

"One of your patients whom you killed—*damn* you!"

Imagine the confusion of both parties. The doctor disappeared, and has made no further attempts at a *funny* investigation of Spiritualism and the mortification of the lady medium has scarcely abated yet."

☞We know a man so habitually sleepy that his curiosity cannot be wakened.

☞"The only victory that costs no tears," said Napoleon, "is that over ignorance."

GRAFTING.

Cut your apple and pear scions for grafting any time between now and the last of February; don't leave it till spring, for when the sap begins to flow it is too late. Keep them in a cold, dry place. The best way is to pack them in *dry* sand and put them in the cellar. Lay them on a cellar floor or wall away from the mice and they will keep pretty well; but if they are allowed to become warm they will sprout; and if kept too damp they will rot. Look at them occasionally. They should not be *shrivelled* and *dry* when wanted in the spring, but should be green in bark when cut. In this condition they are alive and hungry for sap which they will absorb rapidly from the stock on which they are grafted and grow without fail. If they are plump and look fresh when grafted they will dry up and die sure. The time for grafting is when the buds on the stock are just opening. Some do it earlier and succeed, and some wait until the leaves are as large as squirrel's ears.

The best methods for the performance of the work, and the composition of the wax to be used can be learned from any work on horticulture, and most of our readers are probably familiar enough on these points; but more than half of the failures are caused by mismanagement of the scions.—*Chester County Times.*

INSECTS NEVER GROW.—Many people fancy that a little fly is only little because it is young, and that it will grow up in process of time to be as big as a blue bottle. Now this idea is entirely wrong; for when an insect has once attained its winged state, it grows no more. All the growing, and most part of the eating, is done in its previous state of life; and, indeed, there are many insects, such as the silk-worm-moth, which do not eat at all from the time when they assume the chrysalis state to the time when they die.

☞An old fashioned mother, ah, how much meaning is comprised in that simple expression, *the old fashioned mother!* It carries our thoughts back to those women whose home influence was pure and elevating: who taught their daughters to render themselves blessings to society by their goodness, their diligence and their useful knowledge. We think of the lofty heroism, the brave endurance, the thousand virtues they inculcated and sigh at the contrast between the past and the present. How few modern mothers understand or perform their duty in training their children. A smattering of this that and the other, is considered quite sufficient education, and to show off to advantage is made the great aim of life. No wonder there are so many desolate firesides, so many unhappy wives, so many drinking, gambling, husbands.

☞A strong, hearty, lazy fellow, who preferred begging for a precarious subsistence to working for a sure one, called at the house of a blunt farmer and asked for cold victuals and old clothes. "You appear to be a stout, hearty looking man," said the farmer, "what do you do for a living?" "Why, not much," replied the fellow, "except *travelling* about from place to place!" "*Travelling* about, hah!" rejoined the farmer, "can you travel pretty well?" "Oh, yes," returned the sturdy beggar, "I'm pretty good at that." "Well, then," said the farmer, coolly opening the door, "*let's see you travel.*"

☞When the late Judge Howell, of Rhode Island, was at the bar, Mr. Burgess, to play a joke, wrote on the lining of his hat, *vacuum caput* (empty head.) The hat circulated about, exciting a smile on every countenance, except that of the owner, who deliberately took it up and repeated the words, well knowing the author, addressed the court as follows: "May it please the court, I ask your honor's protection, (holding up his hat,) "for," said he, "I find that brother Burgess has written his name in my hat and I have reason to believe he intends to make off with it."

☞An ill-looking fellow was asked how he could account for nature's forming him so ugly. "Nature was not to blame," said he, "for when I was two months old, I was considered the handsomest child in that neighborhood, but my nurse one day *swapped* me away for another boy just to please a friend of hers whose child was rather plain looking."

☞Some tavern jokers hailed a clergyman in Nashua, N. H. the other day, with a request that he would settle a dispute among them.

"What about?" said he.

"Tell us how old the devil is?" they answered.

"Keep your own family records," said he.

☞"Ma, has your tongue got legs?" Got what, child?" "Got legs, ma!" "Certainly not; but why do you ask that silly question?" "Oh, nothing, only I heard pa say your tongue was *running* from morning until night, and I was wondering how it could *run* without legs. That's all, ma."

☞A model young lady, just graduated from a certain distant academy, remarked the other day: "I cannot deceive how the young gentleman can drink so much recess, when they know that it is so conjurious to their institutions."

☞An attorney about to furnish a bill of costs, was requested by his client, a baker, to make it as light as he could. Oh! replied the attorney, "that's what you say to your foreman, but it's not the way I make my bread."

☞What is the difference between a good soldier and a fashionable lady! Ans. One faces the powder, and the other powders the face.

☞To make a pretty girl's cheek red, pay her a sweet compliment. To redden those of an impudent man, slap them.

——William H. Prescott, the eminent historian, died very suddenly of paralysis, at Boston, on the 28th ult. He was the grand-son of the Prescott that commanded at Bunker Hill.

——The Pacific Railroad Bill has passed the U. S. Senate, in such a shape as will, doubtless, develop the best route for the road, and will bring to the knowledge of Congress all the resources of the various sections of country through which conflicting interests demand that it shall pass. It is not likely that any conclusive action will be taken on the subject by the present Congress.

——A private letter received in New York from Hayti, states that the Emperor Soulouque has been defeated by the revolutionists, and that the probabilities are that Hayti will soon be a Republic.

——It is reported that Montcomery, the Kansas robber, has surrendered himself into the hands of the authorities. His partner, Brown, is still actively attending to the business of the firm, murdering and pillaging citizens and travellers indiscriminately.

——Jacob Zeigler, formerly Clerk of the House of Representatives, is urged for the Democratic nomination for Auditor General of this State. Richardson L. Wright, of Philadelphia, is also a candidate for the same nomination.

——In the case of Sarah E. Shaw vs. the Worcester Railroad Company, lately tried before the Supreme Judicial Court of Massachusetts, a verdict of $23,000 was rendered for the plaintiff. The suit was for damages sustained at the hands of the Company, the husband of the Plaintiff having been killed and herself seriously injured by a train on the the Company's road coming in contact with the carriage in which they were riding.

TRUE TO THEIR PROMISES.

The fourteen Democrats in Congress from this State, have nobly redeemed the pledges made by themselves and their friends in regard to the revision of the Tariff. Our own member, Hon. Wilson Reilly, has used his best exertions, in behalf of the interests of Pennsylvania, and his Democratic colleague, Mr. Phillips, has framed a Tariff bill which, if passed, would certainly prove satisfactory to all classes of our citizens. The paramount object of Mr. Phillips, bill, is revenue, but it also aims to give incidental protection to such of our industrial interests as are thought to require it. This bill is all that the iron men can ask, whilst at the same time it is framed with that special Democratic regard for the welfare of the masses, which should always be [illegible] but which is so lightly esteemed by the extreme protectionists. Every Democratic Congressman from this State will vote for it, and if the Opposition are really desirous of a higher tariff than the one in force at present, they can attain the object of their wishes by doing so likewise. The Pennsylvania Democrats have redeemed their promises concerning the tariff, will the Black Republicans and Know Nothings redeem theirs?

BEDFORD RAILROAD.

From what we can learn concerning the above-named project, we may safely predict that it will prove entirely successful. There is hardly a doubt but that the "iron steed" about whose thundering tramp and roaring snort we read so much, will before many years come rushing into old Bedford with all the rattle and clangor of his noisy hoofs. What an era in the history of our county will it be, when the farmer shall always have a market at his own door; when real estate shall double its value, and labor command corresponding wages; when stage-coaches shall be numbered among the things that were, and the "occupation" of six horse road-teams shall have "gone," like Othello's; when Broad Top coal shall glow in our grates at 6 cents a bushel, and hickory shall be used for nought but liberty-poles, axe-handles and split-brooms: when, in short, we shall be connected by railroad with the great cities and commercial marts of this great country! But a truce to speculation; there should be none of that, now, for, doubtless, contractors and sub-contractors will show us enough of it before the Bedford Railroad shall be finished. We will only add that there is still room on the subscription books of the company for a few more names, and that all interested in the making of the road, should once more give it a "shove," either by subscribing additionally, themselves, or by inducing others to do so.

ANOTHER FIRE.

On Saturday night last, at about nine o'clock, the Stable of Mr. Joseph Claar, in the Western part of our town, was discovered to be on fire. A considerable quantity of straw and other combustible matter having been stowed away in the building, the devouring element made short work of it. This is the third stable that has been destroyed by fire in this place and vicinity, within the last few months. What is singular about this stable-burning, is the fact that it has thus far occurred at or near the same points at which former fires of a similar kind took place. This would seem to indicate that these ill-fated spots are the haunts of suspicious characters, who probably bivouac there o' nights, and by carelessness, accident, or design, set fire to their lodgings. Our borough fathers should see to these things.

"POOR WHITE TRASH" AND RICH NEGROES.

The New York *Tribune*, the acknowledged organ of the Black Republicans, in a late article on the revolution in Hayti, makes the following infamous and disgraceful comparison:

"A considerable part of the white population (of Hayti at the time of the abolition of slavery in that country) were *petit blancs*, so called, little whites, the same with the POOR WHITE TRASH of our Southern States, without education, or property, but exceedingly tenacious, like OUR POOR WHITE TRASH NORTH and South, of a distinction which enabled them to take rank of the most accomplished and wealthy MEN OF COLOR!"

Here this Black Republican oracle intimates that the poor white people of our country and the "little whites" of Hayti, occupy the same position in the scale of society, and declares that the former were enabled "to take rank of the most accomplished and wealthy men of color," thus placing our poor white population on a level with the negro! What will the intelligent American laborer say to this? Shall such a degrading insult to a class that forms the bone and sinew of our land, go unrebuked? The "poor white trash," forsooth! Let the poor man remember this stigma that Black Republican aristocracy fixes upon his name. Let him remember it and let him resolve to wipe out of existence the party that dares thus to dishonor him.

☞Y. S. Walter, Esq., editor of the Delaware *Republican*, paid a short visit, during the past week, to his friends in this place. Mr. Walter looks the personification of a happy editor, and his paper affords abundant evidence of his neatness and good taste as a printer.

☞We are indebted to our kind friend D. J. Chapman, Esq., of Philadelphia, for innumerable favors in the shape of newspapers, specimens of the new cent, etc., etc.

The Public Debt.

In his late message Gov. Packer presented a very lucid and satisfactory view of the present condition of the State finances, including the revenues, expenditures and indebtedness. The real debt of the Commonwealth, funded and unfunded, he sets down at $39,268,111. 16; —and adds, "to meet this, besides the ordinary sources of public revenue, the State owns bonds received from the sale of the public works, and which I have every reason to believe, are well secured, amounting to $11,181,000. Deducting this from the outstanding debt, it leaves, to be otherwise provided for, the sum of $28,087,-111. 16." The Governor continues—"It is believed that, with the existing sources of revenue, and the observance of strict economy, this sum may be reduced during the current year, at least $1,000,000."

These are truly words of encouragement that carry hope and confidence to the hearts of the tax-payers. Our State debt, (should the bonds referred to by the Governor, be sacredly preserved for the purpose to which they were originally destined,) is now virtually but $28,087,-111. 16,, and we already have a sinking fund of $1,000,000, per annum, which, with proper economy, may be continued from existing resources. The importance of maintaining this fund cannot be over estimated, and it behooves the Legislature to co-operate with the Governor in giving it permanence, by pledges of fixed resources that cannot be disturbed.

The potency of such a fund is mighty for good. It would pay off our debt in eighteen years—or, in other words, a million of dollars thus appropriated annually, together with $1,-404,355 55, the sum required to pay the annual interest on our present diminished debt, will discharge principal and interest at the end of eighteen years. Thus our debt of $28,087,-111. 16 would be entirely liquidated by this wise appropriation of but $18,000,000!

To show the vast importance of this measure still further:—should we go on paying interest, without a sinking fund, at the end of eighteen years, we would have paid $25,278,399 90 interest money, and still owe the same debt of $28,087,111. 16, undiminished. But, with the proposed sinking fund, our debt would be all paid, at the end of the time specified, and thus eighteen millions, in addition to the interest that must be paid without a sinking fund, would pay the entire debt. It is as disheartening and unavailing as the labor of Sysiphus, to pay interest without sinking the principal.—It is also contrary to the honest habits of the mass of our people, in their private dealings, and their servants may rest assured that no measure would be more popular with them than the establishment, upon an immovable basis, of a sinking fund, at least as large as that indicated by Governor Packer.—*Patriot and Union.*

The Territorial Governments of Arizona, Dacotah and Jefferson.

Washington, Jan. 28.—The bills establishing Territorial governments for Arizona, Dacotah and Jefferson, were to-day introduced by Mr. Stephens, in the House, on his own notice. They are not, therefore, reports from the Committee on Territories, though exactly similar to those agreed on by the Committee, excepting the name of the Platte River country, which is in Mr. Stephen's bill called Jefferson. Jefferson will run from the one hundred and first degree to the Rocky Mountains, and from the forty-third degree to the New Mexican line.

The object of introducing the bills in this way was to have them printed, so that when the Committee on Territories is reached in the call, the bills then reported can be put on their passage, the House in the meantime, having an opportunity to read them.

Black and White.—We find in an exchange paper the statement that *seventy two* white females were married to negroes in the State of Massachusetts last year! If this be so, it is carrying out the Abolition doctrine to practical results.

The Banks In Pensylvania.

In the Auditor-General's report recently made to the Legislature, presenting a statement of the condition of the Banks of this Commonwealth during the last year, there are one or two points, worthy of notice:

1. The amount the Banks owed their stockholders, depositors and creditors, in November last, was $72,095,864 32.

2. The amount of gold and silver at that time, in all the Banks, was $11,420,547 74.—That amount is *money*, but the balance is merely *credit*, viz: $60,675,216 58.

If they are not asked to pay this large amount they can get along quite swimmingly, but if some "Trust Company" should fail, or some sudden demand arise for coin, their condition, and that of the community, would be deplorable indeed.

Most people seem to forget that the Banks are bound to pay all their liabilities in specie. There is a popular error on this subject, namely, it is considered that a Bank is in a good condition if its *specie* equals or is nearly equal to its *notes*. Whereas it is bound to pay its deposits, and other liabilities, in specie on demand, as well as its notes.

Another popular error prevails on the subject of deposits; they are supposed to be money placed in the banks for safe keeping; whereas, they consist mainly of promissory notes, discounted by the banks; and, instead of being *money*, are only *credits*.

It is a singular remedy—although not a novel nor an original one—that is proposed in certain quarters, namely: to use State stocks, which are nothing but *credits*, to increase the security of banks, when at present they stand in the proportion of *seventy-two* of credits to *eleven* of specie! A remedy to increase the disease is a little different from that of the quack doctor, who gave his patient medicine to produce fits, because he was great on fits; but the practice would be equally good in either case.

Why cannot some wholesome measures be adopted? As, for example, the establishment of a Constitutional State Treasury; the prohibition of notes under twenty dollars; the authentication of the issue and circulation of certificates of the deposits of gold. Some measures like these might prevent the evil consequences of our system of banking, and give the people a sound currency.—*Pennsylvanian.*

THE AIM OF THE REPUBLICAN PARTY.

"There is no middle ground," says Giddings; "the Republican party must be one thing or the other—radical Abolition or nothing. It must plant itself on the old and despised Abolition platform, or abandon its organization as a party. An active, hostile interference with the institutions of the Southern States is *imperative* on the part of the Republican party, or its organization cannot be maintained. We must take and maintain *positive* Anti-Slavery ground. The Republican party must come upon my old Abolition platform, and wage an uncompromising war upon the South—if disunion be the result, all right."

Such in effect is the language of Giddings, whom a majority of the present Republican party, while they acted as Whigs, ridiculed and opposed. Giddings tells them the truth when he says they must take their stand on the old true blue Abolition platform. That is precisely what they have got to come to—and most of them are already there.

No one who has watched the progress of the Anti-Slavery movement in our country, will question the correctness of Mr. Gidding's proposition. The Republican party must float on the wave of Abolition excitement or sink to rise no more. In time of comparative quiet it may exist, and cajole the people with the idea that it means to act within the scope and limits of the Constitution, but when the final struggle comes, the old banner of disunion and higher law will be raised, and the real purposes of the organization be plainly revealed. That purpose is to override the Constitution by means of political power obtained in a sectional issue, and thus virtually dissolve the Union, or compel the people of one portion of it to accept such terms as the victors shall be willing to extend. Senator Seward's Rochester manifesto means simply this, and as that has been endorsed by the Republican party, they are bound by its doctrines.—*Pennsylvanian.*

Huntingdon, Pa.—On the 17th inst., Elias B. Wilson, Esq., summoned a jury, and proceeded to hold an inquest over the remains of a man found on Terrace Mountain, some time since. After a careful investigation, the jury returned a verdict of death by violence, by some person or persons unknown to them.—The skull gave evidence of violence, as it was fractured in several places. The man's name is supposed to have been Dr. Mayer, who left Woodbury, Bedford county, about the last of May, or 1st of June, 1856, to go to Philadelphia, since which time he has not been heard of, nor has been known to have reached that place. He was a German by birth, and is supposed to have been a Jew, from the fact that he had two straps about him, which are worn by the Israelites, in commemoration of their deliverance from bondage. There was also found with the remains, a small hand trunk, which contained one glass inkstand, one taper match box, one tin match box, the clasp or frame of a portmonnaie, the frame of a cigar case, and a wooden box filled with matches, which the jury believe to have been the property of the deceased. They are also of opinion, from the appearance of the deceased that he had been lying there from four to seven years.—*Huntingdon Globe.*

A Mourning Dog.—The Boston Transcript says a police officer pointed out a rare instance of canine affection to-day. A handsome Scotch terrier has for two or three weeks past watched beside a grave in King's Chapel burying ground, night and day without cessation, save only occasional intervals of short duration, when obliged to absent himself in quest of food to prevent actual starvation. During the last severe snow storm the humane officer first discovered the dog at his devoted duty, and endeavored to call him away for the purpose of giving him shelter; but the faithful animal would not leave the sacred spot, and responded only in wailing deeper and more melancholy than those of the storm. Even the subsequent intense cold weather, with the thermometer at 15 degrees below zero, did not drive him from his guard, and he may still be seen daily at his post of watchfulness over the remains of some beloved human being whom he has enshrined in his affections. The sleepless interest manifested by this poor brute would seem to indicate that he cherishes some idea of literal resurrection of his friend, and that he must be constantly watching for his coming.

The Board of Canal Commissioners.—After a bill had been carefully matured providing for the abolition of the Board of Canal Commissioners on the 10th of February next, the Senate, upon information which imperatively demanded prompt action, concluded that the safest course was to put an immediate period to the duration of the Board by abolishing it without a moment's delay. As stated on the floor of the Senate, this action was demanded by the abase of the last hours of power on the part of the majority of the Board, in disinterring and allowing claims long since rejected as meritless. The Canal Board has received much unmerited abuse from the Opposition, and now that it is about being abolished, they give it a parting kick, as if its errors and faults were their special aversion. This spirit renders necessary the observation that the allowance of the claims, alleged to be rotten, followed close upon the heels of the entrance of an Opposition member into the Board, who has been landed in all the Opposition prints, both before and since the election, as just the man to put an end to the corrupt practices of the Canal Board. We know nothing positively of the merits or demerits of the claims allowed, but while Judge Strickland and Mr. Plumer were both members of the Board, these claims could not receive their sanction.—*Harrisburg Patriot.*

An Item for Smokers.—Life Illustrated contains the following in relation to the statement that tin-foil, used for wrapping tobacco, has dangerous poisonous qualities:

"There is infinitely more poison in one package of tobacco, than in the tin-foil that surrounds a hundred. If anybody doubts this, let them hold a sheet of white paper over the smoke that curls up from burning tobacco, and after a pipeful or a cigar has been devoured, scrape the condensed smoke from the paper, and put a very small amount on the tongue of a cat, and they will see her die by 'strokes of paralysis' in fifteen minutes."

Don't Use Much Medicine.

There are few persons in this country who are not continually pouring in some kind of medicine, which is often of a powerful nature. Caution in diet, and the proper care in selecting wearing apparel, will often do away with its necessity. If you do fall sick apply to a good physician. If you have a cough or cold, do not neglect it, you can cure it by a few doses of Dr. Keyser's Pectoral Cough Syrup, prepared by that gentleman, at his great medicine establishment, No. 140 Wood street, Pittsburg, Pa. It is now put up in bottles, at 50 cents and $1 each, and can be had in this place, at Samuel Brown's, and at Colvin's, Schellsburg.

☞Any of our readers afflicted with Scrofula or Scrofulous complaints, will do well to read the remarks in our advertising columns respecting it. But little of the nature of this disorder has been known by the people, and the clear exposition of it there given, will prove acceptable and useful. We have long admired the searching and able manner in which Dr. Ayer treats every subject he touches: whatever has his attention at all, has a great deal of it, he masters what he undertakes, and no one who has a particle of feeling for his afflicted fellow man, can look with indifference upon his labors for the sick. Read what he says of Scrofula and see in how few words and how clearly he tells us more than we all have known of this insidious and fatal malady.—*Sun Philadelphia, Pa.*

DIED:

On the 25th ultimo, departed this life, in the 63d year of his age, Saml. Brown, Merchant of this Bor. The sudden death of this most excellent citizen has brought affliction and desolation, not only to his beloved consort and immediate relations—but also to the community at large of which he was a useful and acceptable member. The loss of a dear daughter but three weeks before, and the news of the decease of his venerable mother about the same time preyed very much on his spirits. In the spring of 1820, the dec'd came to this place in the capacity of teacher in the then "Bedford Academy;" an office which he so faithfully and honorably fulfilled, that to this day, many now living bear testimony to his skill as an instructor, and to his probity as a christian and a man. He subsequently embarked in the mercantile profession: and during his course in this avocation, he won golden opinions from all sorts of men. His punctuality—honor—honesty—and general integrity have been recognized by the unanimous voice of his fellow citizens; as was most sensibly demonstrated by the extraordinary concourse that followed his remains to the grave. By his enlightened and freely given counsels, he was an eye to the blind—a foot to the lame and a light to the perplexed and the doubtful.

Born at Gough's town, New Hampshire, (the land of the Puritans) he was not originally a Roman Catholic—but subsequently embraced that faith after deep study and conviction. If his loss to society and to the church of which he was so valued and consistent a member to the moment of his decease, be an irreparable one—much more so is it to his now stricken and desolate home—to his sorrowing—inconsolate widow, child and near and dear relatives and friends. Their consolation must be founded in the memory of his many virtues—his well-spent life, and the bright hope of a blissful immortality—which such a career, as his, must inspire. They are taught by true christian faith, to say with Israel's holy king; "I know O Lord, that thy judgments are just: and in thy truth, thou hast humbled me." And bowing to the adorable will of God, in this afflictive dispensation, they can pray with the same pious prince and prophet; "O let thy mercy be for my comfort, according to thy word, unto thy servant—let thy tender mercies come unto me and I shall live, for thy law is my meditation."—Ps. CXIX. R. I. P.

In Summitville Borough, on Wednesday, the 19th ultimo, Mrs. Margaret M. Humphreys, consort of Gen'l John Humphreys, aged 34 years.

The deceased was a sincere Christian, and a devoted and affectionate wife and mother. In her death, her husband and children have encountered an irreparable loss. May she rest in peace. X.

Township or Single Rights of Bedford County for Sale, of

J. M. Clark's

NEWLY INVENTED PATENT, PORTABLE MERCHANT FLOUR MIXING AND DISTRIBUTING APPARATUS, AND COMBINED GRINDING AND BOLTING MERCHANT

Flouring Mill,

OF FULL SIZE, which requires but SIX HORSE POWER to run—grinds 10 bushels of wheat per hour, and makes better and more flour than any mill in existence—turning out at the same operation, Family, Extra, Superfine, Fine, Middlings, Shorts, Shipstuffs and Bran, and occupying but little space—a room 12 by 24 being amply large to place the Mill in and work it successfully.

This highly ingenious and much needed invention, performs an entire new feature in the manufacturing of grain into flour, and attains objects which have been heretofore wholly beyond reach. The splendid manner in which it performs its functions; the simplicity of its structure; all complicated and useless machinery being avoided; the ease with which it can be transported from one location to another—a horse and wagon, at two loads, being all that is requisite; the small space it occupies when ready for use, which would not be missed when placed in a room with other machinery; and the small amount of power used to propel it—the rapidity with which it performs is work—the different qualities of flour by a single operation—the quality and yield per bushel is unsurpassed.

MILLERS AND MILL-OWNERS!

Your attention is called to this ingenious, valuable and scientific bolting process, which will save you ten times it cost every six months, if used in your mill in place of your present machinery. It will enable you to make a larger yield of flour, a more uniform quality, and a much better flour.

☞Manufacturers price of Mill $650
☞Right to use from $50 to $100
☞Persons in this county wishing to see the practical workings of this mill, before purchasing can do so by calling at the mill of John Bingham, at Hollidaysburg, Penna., who has one in operation.
☞The right to use can be had by calling upon either of the undersigned, at Bedford, who have the power to sell Bedford county.

THE
Liver Invigorator.
PREPARED BY DR. SANDFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best purgative and liver medicines now before the public, that acts as a *Cathartic,* easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Catharties. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strenthen and build it up with unusual rapidly.

The LIVER is one of the principal regulators of the ahumn body; and when it performs its ffnctions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the *Liver* —having ceased to do its duty. For the diseases of the proprietors has practice of more than one organ, one some remedy whereby made it his study, in a many derangements to twenty years, to find To prove that this re- with to counteract the any person troubled with which it is liable. of its forms, has but to medy is at last found, is certain. One dose after eating is suficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken at night, loosens the bowels gently, and cures Costiveness.

One dose taken after each meal will cure Dyspepsia. ☞One dose of two teaspoonfulls will always relieve Sick Headache.

One bottle taken for female obstruction, removes the cause of the disease and makes a perfect cure. Only one dose immediately relieves Cholic while one dose often repeated is a sure cure for Cholera Morbus and a preventive of Cholera.

☞Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.—One dose often repeated cures, Chronic Diarrhœa, in its worst forms, while Summer and Bowel complaints yield almost to the first dose. One or two doses cures attacks caused by Worms in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

☞A few bottles cures Dropsy, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever and all Fevers of a Billious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues. All who use it are giving their unanimous testimony in its favor.

☞MIX WATER IN THE MOUTH WITH THE INVIGORATOR, and swallow both together.

THE LIVER INVIGORATOR

Is a scientific medical discovery, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Diseased Liver.

JOY TO THE ADMIRERS OF
A FINE HEAD OF
RICH GLOSSY HAIR.

Talk of beauty, and it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt.

Professor Wood's Hair Restorative.—We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:

DEEP RIVER, CON., July 23, 1858.

Mr. Levenworth—Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together, I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing, it removed the scurf and new hair began to grow; it is now two or three inches in length where it was all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this.—I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here. Yours with respect,

RUFUS PRATT.

PHILA., Sept., 9, 1857.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—in fact had. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation I can induce many others to try it.

Yours respectfully, D. R. THOMAS, M. D.
No. 164 Vine street.

VINCENNES, IA., June 22, 1856.

Prof. O. J. Wood: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years, been in the habit of using, other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours,

WILSON KING.

St. Clairsville, June 11,'58. GEO. B. AMICK.

Hammonton Lands—*NEW ENGLAND SETTLEMENT.—RARE OPPORTUNITY.*—TO ALL WANTING FARMS—in a healthy place, twenty-five miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has been recently opened for sale, and the first division of 10,000 acres divided up into farm of twenty acres and upwards. The soil is of *the best* quality for the production of fruits, grains &c. The price is $15 to $20 per acres, payable in easy quarterly yearly instalments, with a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling *every industrious man to buy a farm.* It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy loam, with a *clay bottom* and *retentive* of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine before purchasing. This all are expected to do—They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal. The Hammonton Farmer, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents p r annum.

Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land:—Leave Vine street wharf, Philadelphia, for Hammonton by railroad at 7½, A. M. and 5½, P. M.; when there inquire for Mr Byrnes. Boarding conveniences will be found. Letters and applications can be addressed to S. B. COUGHLIN, 202 South Fifth Street below Walnut, Philada. Maps and information cheerfully furnished. (aug. 27, '58.

SHOE STORE!

Ferguson & Co.,

HAVE just opened their new Store in "Anderson's Row" of buildings, nearly opposite the *Gazette* Office.

Their stock of Boots and Shoes for men, women and children, is certainly the best and cheapest that has ever been brought to Bedford, for three reasons.

First:—On account of the pressure of the times, they have been laid in at 30 cents on the dollar less than what was paid last year for the same goods.

Second:—They were bought for CASH, and the usual discounts made.

Third:—They were bought in much larger quantities than dry goods merchants buy them, and consequently were bought much lower.

If this is doubted, the evidence is on the stand at the counter.

LADIES' DEPARTMENT.

The store room has been so arranged as to have a separate apartment for the Ladies, provided with comfortable chairs and stools where they cat sit and talk, or buy shoes as they please.

Pickles and Fruits.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
